Dunno, but Michael just called to say that he and Josh are on the skype meeting, so we could call into that and talk through these edits with them now. Want to do that?

BTW- who drafted this? Not going to touch Pete's quote and I would have to go back to confirm but pretty sure it was one (a) "pipe" but perhaps one pipe connected to another pipe – so maybe pipes is accurate?

Here are my suggestions.

**Ex. 5 AC/DP**

**Ex. 5 AC/DP**

Beyond that, I didn't really go back to the PRAP; I'm hoping the details of the preferred alternative are correct!

Who drafted this? 1909 the dates are all off – constructed in 1902, began operations in 1903 reclaimed from the Passiac in the late 1800s – I do not like being rushed to review this doc in 30 minutes while on a call but I will do the best I can. Let me know if you all have any comments. Thanks
